 Qurratulain765 |  Qurratulain Amjad

SUMMARY

Passionate Web Developer skilled in building clean, high-performance, and responsive user interfaces. Dedicated to leveraging modern frontend technologies and strong backend foundations to deliver seamless, user-centric web experiences.

WORK EXPERIENCE

Web Development Intern at Qwetrum Technologies (Remote) 2026 - Present
Engineered responsive web applications and digital experiences using core technologies. Delivered tasks independently while collaborating across a virtual, cross-functional team..

PROJECTS

Findora-Extension [Link to Demo](#)
Developed a Manifest V3 Chrome extension to identify products from social media images via right-click. Automates price comparisons and searches across Amazon, Daraz, and eBay.

GlamHair — AI-Powered eCommerce [Link to Demo](#)
Developed a premium hair care website with a responsive UI and an integrated AI Chatbot. The bot offers real-time hair diagnostics and personalized product recommendations for issues like hair fall and dryness.

EcoMind — AI Eco-Assistant [Link to Demo](#)
Developed EcoMind, an AI tool that analyzes habits to provide personalized green alternatives. Features an intuitive interface and data-backed sustainability recommendations.

Glamorous — Fashion Hub [Link to Demo](#)
Built a stylish platform for curated fashion trends and personal wardrobe management to simplify daily outfit selection.

NestQuest — Real Estate Marketplace [Link to Demo](#)
Developed a streamlined platform for property listings and smart filtering to help users discover homes and connect with sellers easily.
